Syringe (Single): **£33.27/€38.26**

## Filtek™ Bulk Fill Flowable Restorative

Filtek™ Bulk Fill Flowable Restorative reduces your procedure time without reducing your confidence: Fast and easy 4 mm placement, Flowable viscosity for easy adaptation, High strength and low wear.

- A4 mm depth of cure which reduces the need for incremental layering and risk of contamination
- A flowable viscosity for easy adaptation
- Up to 50% more strength and nearly twice the wear resistance compared to leading bulk fill flowables.

### Suggested Applications:

- Base under Class I and Class II direct restorations
- Liner under direct restorative materials
- Pit and fissure sealant
- Restoration of minimally invasive cavity preparations (including small, non stress-bearing occlusal restorations)
- Undercut blockout
- More information online at [www.bfmulholland.com](http://www.bfmulholland.com)

Shades: A1, A2, A3 & Universal.

Syringe: **£47.69/€54.84**

## Filtek™ One Bulk Fill

Designed for the posterior, its unique optical properties and improved opacity give you the simplicity of one-step placement (up to 5mm) without compromising aesthetic results. This allows for the management of opacity and depth of cure in a smarter way.

- Fast and easy one-step placement
- Increased opacity for improved aesthetics
- Stress relief to enable up to 5mm depth of cure
- No need for layering or expensive dispensing devices

### Suggested Applications:

- Direct anterior and posterior restorations (including occlusal surfaces)
- Base/liner under direct restorations
- Core build ups
- Splinting
- Indirect restorations including inlays, onlays and veneers
- Restoration of deciduous teeth
- Extended fissure sealing in molars and pre-molars
- More information online at [www.bfmulholland.com](http://www.bfmulholland.com)

Shades: A1, A2, A3, B1 & C2.

Capsules: **£47.69/€54.84**

Syringe: **£47.69/€54.84**

## Filtek™ Z250 Universal Restorative

Filtek™ Z250 Universal Restorative has been used in over a million restorations worldwide. Based on reliable hybrid technology it is ideally suited for convenient single-shade restorations in the anterior and especially in the posterior region.

The Filtek™ Z250 universal restorative was rated an “excellent choice for durable, aesthetic restorations in anterior and posterior teeth”. Long-term clinical experience. Easily sculptable and virtually non-sticky. Patented zirconium/silica filler for contrast rich radiopacity without heavy metal additives.
