UnoTaper

Rotary Files

UnoDent Rotary Files are made with an advanced Gold Technology Heat-Treatment process. This provides superior flexibility and files are substantially more resistant to cyclical fatigue compared to non heat-treated files.

Compatible with most universal endodontic handpieces.

Recommended Torque: 1.5 -3.0 N/cm. Recommended Speed: 300rpm

UnoOne

Reciprocating Files

UnoDent Reciprocating Files are a single file system made with an advanced Gold Technology Heat-Treatment process. This provides superior flexibility and files are substantially more resistant to cyclical fatigue compared to non heat-treated files.

These files can only be used in a compatible reciprocating motor.
