## What is PRP Therapy?

PRP therapy is known as plasma of stem cell therapy, made famous by the 'Vampire or Dracula' facelift. The treatment utilises your body's own ability to regenerate, heal and rejuvenate the treated area. The idea is that injecting PRP into damaged tissues will stimulate your body to grow new, healthy cells and the procedure is simple, safe and very beneficial, achieving amazing natural results.

## PRP Can Help With:

Hair Loss, Scars, Acne, Stretch Marks, Post Acne Scars, Pigmentation, Dark Circles, Saggy & Loose Skin, Tired & Aged Skin, Sun Damage & Skin Rejuvenation.
