PhilArt, welcome to the family

PhilArt is a complete series of injectable skin boosters. Skin boosters are an important pillar of a minimally invasive aesthetics portfolio, next to HA fillers, botulinum toxin and PDO threads, allowing for combination therapies and a full-face approach.

Promoting cell regeneration with Polynucleotides

PhilArt has proven efficacy supported by extensive clinical data.⁴ PN-HPT® featuring a high degree of purification and safety.⁴ This technology promotes free radical scavenging², increasing the viability of fibroblasts and enabling collagen stimulation.³
